### WORK EXPERIENCE

#### Software Engineer

Wunderkind

Jan 2022 - Jan 2023 / New York, NY

- Successfully integrated internal platform with client campaigns with vanilla Javascript and in-house tools while writing maintainable, reliable, scalable, and testable code
- Built out new functionality and maintained existing APIs to ensure code is clean and efficient
- Reviewed code for peers and assessed tools and resources for web accessibility implementation
- Utilized JavaScript, HTML, CSS, and jQuery to create efficient and user-friendly marketing campaigns for hundreds of major companies

#### Freelance Web Designer & Manager

Mar 2020 - current / Astoria, NY

- Designs, builds, and maintains various websites for clients using Javascript, React, HTML, and CSS

#### Website Manager/Executive Officer/Musician

US Army, Reserves

Nov 2004 - current

- Website Manager - Designs, builds, and maintains website for the 78th Army Reserves Band using Javascript, React, HTML and CSS
- Serves as a Warrant Officer, responsible for the management and well-being of a 50+ person team in all aspects related to HR, finance, and training
- Programs, produces, and performs at 100+ community and training events in the tri-state area

### Select Projects

New York, NY

- Weather App - Role: Sole Developer. By using the OpenWeatherMap API, I created a weather app that allows the user to enter a city and retrieve current weather data and descriptions. Tech Used: Next.js, Axios, CSS
- Grace Shopper - Role: Team Developer. Worked with a 4-person team to create an e-commerce store selling "stickers and pins" working both solo and in pairs to grow the front-end as well as a functional back-end. Tech Used: Webpack, React, Redux, Sequelize, Socket.io, Passport Google OAuth, CSS, Heroku
